Letter of Concern

Dear Mr. Ezyk:

Thank you for participating with representatives for the Seneca County General Health District, Chris Lund, Wes Younger and myself, to tour the H2S gas treatment plant of the Gas Collection and Control System (GCCS) on June 12th, 2023 as well as a general review of certain areas of the landfill. During this tour, two areas of concern were observed. The first was torn geomembrane boots around at least two gas wells (we observed three wells) on the North West corner of the, south of TR 108, where the exposed geomembrane and wind defender blanket is installed.

The second area of concern is vectors. There is a groundhog burrow near a monitoring well on the east side of the southern hill that we visited near the leachate breakouts that were recently corrected.

The Seneca County General Health District is asking for a response within 7 days of receiving this letter with a plan of action on correcting these issues.

Please be advised that this letter of concern is only associated with those areas of the operations that were inspected or documentation reviewed and does not constitute a waiver of potential violations not discovered.

Should you have any questions, please contact me at 419-447-3691 ext. 6327 or rsendelbach@senecahealthdept.org

Sincerely,

Ryan Sendelbach
Seneca County General Health District
